PROJECTS

Spring Fairy, 2023 — *Short documentary*

A poetic documentary about my nomadic roots in Iran. It granted me the Vice Chancellor's Award for 2023 and got screened in Cinema City Norwich only three months after I entered the UK.

At long last, 2025 — *Short drama film*

A short film where I served as both the producer and creative producer. My key achievement was securing a 400-year-old house for our location at no cost. Additionally, I sourced 60s dresses for our actress for free.

Never Gone, 2025 — *Short documentary*

A short documentary, where I served as an assistant director and editor. I found myself more comfortable engaging with people's emotions, which allowed me to help our director ask deeper, more intimate questions. Additionally, my editing skills contributed to a sense of flow in the film.
